APC-2G

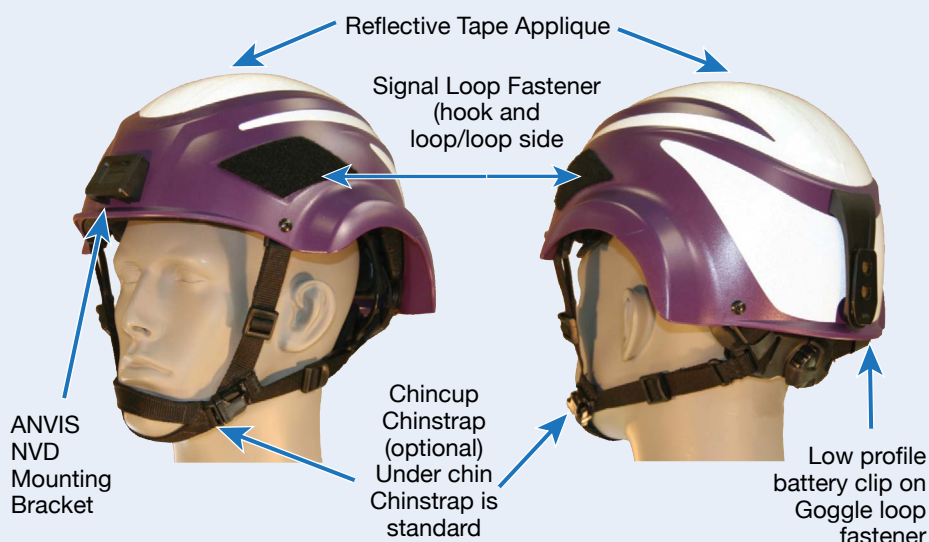

Head Protection System

Features

The APC-2G is designed to meet industrial standards for top and side impact protection while accommodating a wide range of head sizes. The helmet will allow easy integration with hearing protection and communication systems, night vision devices, eye protection, and other protective devices.

Benefits

- Meets ANSI/ISEA Z89.1 Type II Class C head protection requirements
- Meets Class G electrical protection test as defined in CSA Z94.1
- Fits 5th percentile female to 95th percentile male as defined by US military sizing guidelines
- Compatible with night vision devices, eye protection and NBC protective mask
- Compatible with many hearing protection and communication systems
- Easy to clean
- Simple construction, fewer parts
- Easy maintenance and care of replaceable parts

Cranial Sizing

Cranial Size	Headband Circumference
Medium	530-560 mm
Large	560-590 mm
Extra Large	590-630 mm
