Pocket for Ergofit Safety Knife

Indicator window shows status of firing mechanism

3D shaping creates ultimate wearer comfort and full unobstructed movement

Flexible durable 300d fabric ensures super comfortable custom fit

Dual crutch straps

Survive, be found and get recovered

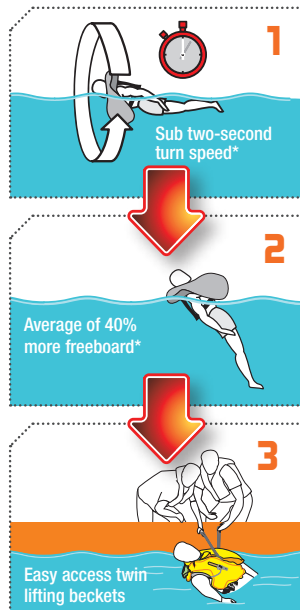

It is what's inside the ErgoFit that will save your life. Drawing upon expertise gained from developing search and rescue lifejackets, Crewsaver presents the new ErgoFit collection.

1 Survive – a turn speed of less than two seconds and unrivalled freeboard of an average of 40 percent* more than the standard requirement, the ErgoFit will double your survival chances even when wearing multiple layers of ocean clothing.

2 Be found – The ErgoFit lifejacket can be integrated with a PLB or AIS system. Coupled with a SOLAS approved light (190^{CS} optional) whistle and reflective tape ensures you are located quickly.

3 Get recovered – When you are found it is critical to get you out of the water as soon as possible, and accessible twin lifting points are incorporated on the front of the ErgoFit for ease of recovery.

*Results and times relate to average from type testing during approval.

ERGOFIT INFLATION OPTIONS

Hammar (MA1) – Activated by water pressure with a unique hydrostatic valve, which only fires when submerged in 10cm of water to avoid accidental inflation even in extreme conditions (further details www.cmhammar.com).

Automatic (UML Pro-Sensor) – Inflates automatically within five seconds of entry into water

Manual (UML Pro-Sensor) – Inflation is via a manual pull lanyard allowing the wearer to swim without the lifejacket being activated.

ERGOFIT LIFEJACKET SELECTOR

You are in...	You are on...	You need...
Extreme conditions, waves breaking over deck, large amounts of airborne spray wearing full ocean-layered clothing	Ocean racing yacht, ocean cruiser or motor yacht	ErgoFit 290 ^{OC} Ocean Hammar or Automatic 
Offshore conditions, moderate airborne spray, wearing standard ocean clothing	Offshore racing yacht, offshore cruiser or motor boat	ErgoFit 190 ^{OS} Offshore Hammar or Automatic 
Coastal conditions, small waves, some airborne spray, wearing coastal clothing	Day racing yacht, sportsboat, motor boat or RIB	ErgoFit 190 ^{CS} Coastal Hammar, Automatic or Manual 

ERGOFIT 290^{OC}

ocean

Performance without compromise

The ErgoFit 290 Ocean is for the serious ocean sailor who is exposed to the full fury of the elements and refuses to compromise on safety. With nowhere to hide when a storm rolls in, it is vital to have the best kit on the market to stay safe.

- This lifejacket is ISO 12402-2 (275N) approved yet offers a superior 290N buoyancy
- Super fast turn speed even when wearing multi-layered ocean clothing
- Exceptional inflation chamber ensures the airway is kept well clear of the water whatever the conditions
- Innovative 3D shaping provides unbeatable custom fit
- Dynamic cutaway design allows full freedom of movement in extreme conditions
- Velcro tab to attach PLB
- One universal size
