Abseil/Rappel

9162

Our abseiling / rappelling gloves combine 3 major elements that are crucial when handling and securing ropes : high dexterity, high abrasion resistance and firm grip. Some added features make this snug fit glove highly efficient for roping.

slim fit finger construction provides extremely high finger sensitivity for handling ropes, weapons, radio and equipment, and avoids the risk of twisted fingers

Applications

- _ for (tactical) rappelling, belaying, ... during training or intervention tasks
- _ for rescue operations
- _ for height works (industry / environment)

Target groups
