

beaufort

THERMAL PROTECTION LAYER

One-piece mid-layer for maximum protection

Two layers of high insulation and low bulk fabric ensure exceptional levels of thermal protection. Constructed with comfort in mind, the Thermal Protection Layer creates a micro-climate around the wearer, keeping your body dry and warm to maintain outstanding performance.

BENEFITS

- ⦿ Unisex size roll with long/short sleeve/leg options
- ⦿ Constructed from fire-retardant materials for your safety
- ⦿ Four way stretch fabric and flat seams provide complete comfort and mobility
- ⦿ Modular system allows optimum protection for all your missions
- ⦿ Fleece material provides superior insulation
- ⦿ Water-repellent finish on the outer layer

Part of Beaufort's modular Thermal Protection range

THERMAL PROTECTION LAYER

TECHNICAL DATA

Thumb and foot loops only standard on the Longie

Machine washable and quick drying

46% Lyocell, 37% Modacrylic, 14% Aramid, 3% Spandex

Lining: 100% Polyester
