

470GPM INFLATABLE BOAT

ExoKeel technology compatible

Versatile, stable, highly manoeuvrable, and designed for conducting multiple operations.

The 470 GPM features an inflatable deep V-shaped keel and hull shaping for offshore and inshore use. Suitable for insertion/extraction, raiding and search and rescue.

BENEFITS:

- » Design and construction benchmarked against SOLAS rescue boat standards
- » Outstanding stability and manoeuvrability
- » ExoKeel reinforces the boat profile, improving the ride performance in heavy sea states efficiently delivering the team safely to their target, ready for their mission
- » Customisable accessories such as single point inflation, rapid deploy tow, cargo net
- » Available in 3 different floor options
- » Lightweight design, optimised for carrying with several handles
