

SENTINEL™ SERIES (MSD660 / MSD660 GS / MSD660 AF / MSD660 NF)

US NAVY AVIATION RESCUE SWIMMER DRY SUIT (MSD660 / MSD660 GS)

US AIR FORCE PARARESCUE - NON FIRE RETARDANT DRY SUIT (MSD660 AF / MSD660 NF)

The MSD660 is a specialized dry suit designed for US Navy Aviation Rescue Swimmers and adopted by USAF PJs. The suit is designed to aid in hypothermia protection during surface operations in or on the water when worn with insulating undergarments. The MSD660 is easily donned/doffed by the wearer using a diagonal watertight entry zipper across the torso and wearer's left shoulder and includes a relief zipper. Customized fit can be achieved through the standard 24 available sizes (including short & tall), adjustable internal suspenders and a waist adjustment system. Every MSD660 produced by Mustang is leak tested to ensure waterproof integrity prior to leaving our factory. All suits are 100% tested to ensure the highest level of reliability and performance.

SIZE	Please see size chart on reverse page
COLOR	ORANGE/BLACK
BERRY COMPLIANT	MSD660 / MSD660 AF
TAA COMPLIANT	MSD660 GS / MSD660 NF
CLO	Immersed Clo 0.66 when worn with MSL600 and next to skin weight thermal underwear

SENTINEL™ SERIES (MSD660 / MSD660 GS / MSD660 AF / MSD660 NF)

MOBILITY BASED SIZING™

EXCLUSIVE INNOVATIVE DRY SUIT DESIGN THAT REDUCES BULK WHILE INCREASING FIT, COMFORT & MOBILITY

Based on more than two years of extensive anthropometric research, range of motion testing and user evaluations, we introduce the industry's newest improved fitting platform designed specifically for dry suit users for tactical, rescue or special operations. Mobility Based Sizing™ offers a semi-custom suit that reduces bulk and increases range of motion without the expensive custom price tags or long lead times.

The mobility based sizing platform:

- Was developed based on anthropometric data from 2,500 North American 3-D body scans, ensuring the sizing and patterns of the suits fit the greatest number of individuals
- Immensely improves range of motion while decreasing bulk
- Offers standard expanded sizing (such as short and tall) for all sizes so users can order a semi-custom suit without the expensive price or long lead times

The Mobility Based Sizing platform is like none other currently in the industry. To order a suit that fits you best, follow our detailed measuring instructions online at:

www.mustangsurvival.com/mobility/

SIZING GUIDE

To properly fit your mobility based sizing garment, follow the instructions below.

STEP 1 – MEASURING

For accurate measurements, please refer to the measurement diagram and instructions provided.

All measurements should be taken with a "tailors" (flexible) tape while wearing garments and any accessories such as body armor usually worn under the garment.

STEP 2 – SIZING

Based on your measurements, determine your size according to the chart below. If all your measurements fall between the ranges of two sequential sizes (such as between S and M) select the size that best fits your Torso Hoop and Inseam.

LOCATION	1	2	3	4	5	6	7	8
SIZE	CHEST (IN)	WAIST (IN)	HIPS (IN)	SLEEVES (IN)	INSEAM (IN)	TORSO HOOP (IN)	HEIGHT (IN)	SOCK (USA Men)
